

# **DRAFT Update to Homeless Systems Gaps Analysis** December January 20212023

# **EXECUTIVE SUMMARY**

Orange County has made great strides in filling gaps in the homeless service system over the past two years. Service providers and local governments have significantly expanded programs and services to address the needs of people atrisk of and experiencing homelessness. Community members and other funders have also stepped up to finance new and expanded programs.

At the same time, demand for homelessness prevention, services, and housing has also increased. The COVID global pandemic exposed existing inequality and overwhelmed existing supports and systems. There are currently fourteen seventeen gaps to be filled to meet the current need and end homelessness in Orange County.

Filling the gaps will provide the right mix of client-centered and evidenced-based programs which will in turn result in homelessness in our community becoming rare, brief and one-time.

#### FILLED

- Housing Access Coordinator
- Homelessness Diversion Funding •
- Street Outreach
- Housing Locator

#### TO BE FILLED

- HOUSING
  - Income Based Rental Units
  - Rapid Re-housing
  - Permanent Supportive Housing
  - Youth Housing
  - -Landlord Incentives
  - -Housing Locator
    - Furniture and Household goods
  - SERVICES TEMP. HOUSING
    - → Accessible, housing-focused shelter
      - -Medical respite beds 0
      - Bridge Housing
  - SERVICES CONNECTIONS
    - ↔ Housing Helpline staffing
    - ← Crisis/Diversion Facility
    - Integrated Service Center
  - SERVICES DIGNITY
    - -24 hour bathrooms 0
    - Memorial service funding

**Program Description:** Homelessness diversion funding is flexible funding that allows people to find safe alternatives to emergency shelter. Orange County has reduced the number of people entering the homeless system through flexible diversion funds provided by the Carolina Homelessness Prevention Initiative (CHPI) as well as effective utilization of Emergency Housing Assistance and the Eviction Diversion program. CHPI was started by a group of undergraduate students at UNC who wanted to help people experiencing homelessness. After conversations with service providers and OCPEH staff, CHPI decided to tackle homelessness diversion, a gap at that time. CHPI has a system of ongoing member recruitment and leadership development to ensure ongoing continuation of this completely student-led and operated 501(c)3 nonprofit organization.

| exiting homelessr | ness, people with Housing   | Choice Vouch   | ners, and other people at risk of   |                |
| homelessness wh   | o contact the Housing Hel   | nline The no   | sition works in coordination with   | the Housing    |

Access Coordinator (HAC) to develop and maintain landlord relationships. This will allow the HAC to focus more completely on system-level landlord recruitment. People are searching for units with Housing Choice Vouchers and other rental assistance without being able to locate units. As of December 2022, there are over 180 households experiencing homelessness who are connected to service providers and in active housing search, up from average of 102 households in 2019.

Program Budget:

Salary & benefits for Housing Locator position \$67,000

|                |                             |               | unit development is \$80,000 p    |                  |

**Commented [RW1]:** RBW to reach out to TOCH for more recent data; Is there interest in showing a distribution of cost burden by AMI? How many units at which income-level? Possible source – County Wide database – captures who is intended to be served; **TOCH has avg subsidy/unit** OR total cost per unit (local govt typically provides gap financing); Look at max tax credit units allowable per year per County so absent other actions, we'd need to build xnumber of units over x number of years, can include updates from other partners – PWH, CHT, Empowerment, etc

of three units and refers survivors and their families to domestic violence or other types of shelters in other counties when the units are filled. Accessing safe housing near support networks is critical for survivors of domestic violence and is a key strategy to increase physical and psychological safety while reducing length of time homeless.

Page 11 of 18

**Commented [RW3]:** Explore new shelter costs from NCHFA – with similar capacity to IFC capacity under revised GNP, Industry standard for ES beds

Note: The cost here will not meet the entire need, but is an estimate of the number of units that could be sustainable using the current scattered site model. Compass Center would like to engage in a mixed strategy method that includes sustained funds for rapid rehousing.

 history of incarceration
 Image: New York

 Program Description: There is a critical need for short-term, low barrier reentry housing and supporting services to help reentering individuals re-integrate into the community, especially during COVID. Bridge Housing funds allow for short-term supportive stabilization housing at hotels for up to 60 days for 55 reentering individuals per year and supportive services for 65 individuals through Reentry House Plus.

 Reentry House Plus has contracted with the SWIT (Success While in Transition) program run by individuals who themselves have reentered successfully to provide a month-long course and ongoing one-on-one case management and peer mentoring for these individuals in collaboration with our Local Reentry Council. Bridge Housing and support is an evidence-based best practice for ensuring stabilization and support for people reentering from incarceration, which has been identified as a critical priority by U.S. Housing and Urban Development Secretary, Marcia Fudge.

| Program Description: The     | Orange County Housing H                        | elpline is the ce | ntralized access point for peo | ple in housin             |
| crisis, including people who | o need to access emergen                       | cy shelter, home  | elessness diversion, eviction  | diversion, and            |
| homelessness prevention in   | ncluding rent and utility as                   | ssistance. Since  | launching in March 2020 thre   | ough                      |
| November mid September       | 20221, Helpline staff have                     | e fielded over 24 | 4,000 calls and 18,000 emails  | <del>, serving over</del> |
| 8800 households. In Septer   | <del>nber 2021 the Helpline re</del>           | ceived an avera   | ge of 82 calls and 47 emails p | <del>er day of</del>      |

people in housing crisis serve approximately 600 households per month. Helpline staff offer assistance using a trauma-informed and client-centered approach. The increased volume of people in housing crisis due to COVID results in increased need for Housing Helpline staff to answer calls-<u>and</u>-emails<u>, and provide in-person</u> assistance to households less likely to have regular access to phone and email.

Program Budget:

Salary & benefits for 2 Coordinated Entry Housing Specialists

\$161,010

#### BACKGROUND

The Orange County Partnership to End Homelessness is a diverse group of community stakeholders including services providers, local governments and community members who work to prevent and eliminate homelessness in Orange County. This collaborative seeks to ensure that homelessness is rare, brief and one time through a coordinated system of assessment and service delivery including prevention and diversion, emergency shelter and rapid re-housing and permanent housing options.

In 2016-2017 the Orange County Partnership to End Homelessness (OCPEH) gathered a series of meetings with people with lived experience of homelessness, homeless service providers, community leaders, and state homeless experts to map the homeless service system in Orange County. This process created the Orange County homeless system map and the homeless system gaps analysis. OCPEH staff work with community members to update the gaps analysis annually, the latest updated is previewed to be approved by the OCPEH Leadership Team in October January 20232021.
