How to find privacy docs, data collection forms, and trainings

Data Collection forms reviews

Question: Suggestions for how to adapt the new forms for individuals to families?

Answer: Forms produced for individuals as the default because most of the system/clients do present with other adults or by themselves. To adapt, we suggest that multiple copies are used and the questions are synced between page 1, page 2, etc for all clients. It could be good collating task for a summer volunteer too!

Privacy Docs – quick review of Privacy Notice and Release of Information documents and how to use.

What's next calendar

- June 30th is the deadline for new HMIS@NCCEH trainings and agreements!
- Group decided to cancel the July HMIS Users Meeting
 - Request for Chronic Homeless data elements training – good news, there's one recorded for a first look
- Group decided to move future HMIS Users Meetings to IFC's Community House
