System Performance Measures reviewed, in particular:

SPMs covers three years of data because of look-back periods (10/1/2016 – 9/30/2019)

How HMIS Data contributes to Measures 1-5, 7

Agencies can run the 0700, 0700.1b, 0703, 0706 for your agency/projects SPMs

Submission of Orange's reports will be iterative. Every few weeks, more corrections will be sent out. It's important that agencies communicate with the Data Center about the status of corrections.
