Corey presented the [Current Orange County Grants & Reporting Periods](#), a list of all grants in Orange County as listed on the CoC Grant Inventory and in Sage. The color coding indicates which grants have been submitted (green), those that are coming due soon or past due (yellow) and all others in white.

- Suggestions for document : check on grants from 2013 by UNC and get them taken out, might be useful to have HMIS number, how to bridge old grant/new grant in easiest way? Take off ones that are already submitted, use this as list of APRs to check in every month to see what's going on

## Data & Grants Workgroup – Meeting Notes

Mon. April 16, 2018, 3-4:30 pm

Southern Human Services Center, Room D, Chapel Hill

The [DRAFT Program Performance Matrix](#) uses the same criteria as we've used in the CoC Scorecard the past few years, with the idea that we'll look at data from each program quarterly instead of once a year.

- Suggestions for document: Set metric standards for measures; Find a standard for #2 (shelter/TH: 30+%); Should PSH and RRH be separated under standard percentages?; Where did we get the 15 days standard?; Add a 13<sup>th</sup> measure: length of time homeless - SPM (remove that from number 12 - APR); Other measures - is there a way to track how vulnerability in the county is decreasing over time?

Next meeting: May 21, 3:00-4:30pm, Southern Human Services Center Room D
